CENTRE FOR HUMAN SETTLEMENTS

A/V VIEWING LIBRARY CATALOGUE

The Centre for Human Settlements A/V Viewing Library was established in May, 1977 at the University of British Columbia.

The elements contained within the Library and this catalogue consist of the core collection of Habitat films, the video recordings of the U.N. Conference on Human Settlements and the parallel N.G.O. Habitat Forum Conference. Approximately 200 new titles have been added during our first three years of operation, pertaining mostly to human settlement issues.

The Viewing Library contains the videotape transfers of the actual film programmes as far as the core Habitat Collection is concerned. This group of programmes is also available, for the most part, in the five official languages of the United Nations - English, French, Spanish, Chinese and Russian. There is also an Arabic language version available.

Although none of the material in the Viewing Library is available for "loan-out", the programmes are available from other sources.

The catalogue begins with a Subject index, followed by a Country index listing each programme and concludes with an Author/Title index. Programmes in the core Habitat Collection are identifiable by the three-letter code often an abbreviation of the country represented.

AFGHANISTANAfghanistan: Heart Of Asia

APG 216

The role of water and agricultural policies are described, as well as individual methods of farming. There is also a focus on national and urban settlement planning, covering issues ranging from nomadic life to the country's historical heritage, housing conditions and government policies, and water pollution. Part 1: 17:18 min., part 2: 20:25 min.

37:43 min. 1976 Language: English

AGE OF UNCERTAINTYLand And People

CHS 530

Kenneth Galbraith explores why people are poor. One fundamental consideration is the nature of the relationship between the people and the land.

57 min. 1977

Metropolis, The

CHS 555

The history of cities is surveyed to show how the modern metropolis embodies kinds of cities which have preceded it in history.

57 min. 1977

ALGERIAExperience Of 1,000 Villages, The

ALG 106

A description of village life, and its transformation by the redistribution of land on socialist principles. New villages are built after careful study of both the site and economic aspects. Production methods are updated, and new community structures established.

20:40 min. 1976

ANTARCTICAMost Beautiful Place On Earth, The

CHS 504

Since 1957 (the International Geophysical Year) the huge icebound continent of Antarctica, shown in this film, has acquired a permanent population. Twelve countries now maintain scientific expeditions "on the ice", exchange the fruits of their research and visit each others' establishments. Countries often hostile in the political world up north have agreed to this extent to break the ice.

20 min. 1970

ARCTICAccessible Arctic, The

CHS 487

The growing advance of industry and settlement in Canada's far north. New roads, railways, airfields have brought once remote and isolated communities more into mainstream Canadian life.

24 min. 1967

Below Zero

CHS 486

A feature length documentary shows not only recent technological developments but also how the quality of life has improved in some of the older settlements in the sub-Arctic.

60 min. 1970

People Of The Seal

CHS 517

Some of the most vivid actuality footage ever filmed of the life of the Netsilik Eskimos in the Pelly Bay region of the Canadian Arctic.

99 min. 1971

ARGENTINAConhabit Program, The

ARG 154

Facing familiar problems of uncontrolled urban and industrial expansion, pollution and rural decline, Argentina created "Conhabit" comprised of organizations jointly responsible for solving national settlement problems.
